

## **BLITZ<sup>®</sup> PURE CHROME EFFECT**

*Simple gloss is not enough*

### **1. General Product Description**

The **Blitz<sup>®</sup> Pure Chrome Effect** is a new, impressive high gloss chrome-effect in the Benda-Lutz product range. By ongoing development of the well known Blitz<sup>®</sup> Bonding process it was possible to create an outstanding pure chrome effect that can easily be used for interior and exterior applications.

### **2. Benefits of Pure Chrome Effect**

- exceptional gloss
- high opacity
- unique metallic-effect

### **3. Fields of Application**

Indoor applications:

- interior furnishings
- decoration material
- car interior paints, add-on paints

Outdoor applications:

- wheel rims
- vehicle paints

The exceptional Blitz<sup>®</sup> Pure Chrome Effect can be used for interior as well as exterior applications. For exterior use, a clear topcoat is essential. To achieve best results in gloss, an acrylic powder topcoat is recommended.

### **4. Application Details**
